ISSUES REPORT ON MEXICAN BUSINESS

Effect of Revolution on Business With Sister Republic Shown in Detail.

Washington, D. C., July 31.—The revolution in Mexico has been handled from almost every imaginable standpoint, but it remained for the department of commerce and labor to show it in a new light. In the statistics for the imports and exports of the United States for the month of May alone, without exception, business with Mexico shows a decrease over the corresponding month of last year. There are two or three exceptions among the articles exported to Mexico, notably freight cars, lumber and books, maps and other articles manufactured of paper. In the list of goods imported from Mexico, however, the decrease is universal and very marked.

The following tables show at a glance comparisons between the figures for May, 1910, and May, 1911, in the different articles imported and exported to Mexico by the United States:

MYSTERIOUS DEATH OCCURS AT SAFFORD

Colorado Cattleman Found With Bullet Hole Through His Brain.

Safford, Ariz., July 31.—It now appears that Joe Cheairs, who was reported to have committed suicide here Friday, may have been murdered, though the shooting was done with the victim's own revolver, recently purchased in Globe.

The body was found on the floor in front of the dresser by Mr. Jones, the hotel proprietor, who rushed to the room from outside the house immediately after the shot, and saw no one on the second floor, but found the still smoking revolver several feet from the body. Mr. Cheairs was shot through the side of the head, and lived nearly an hour, although unconscious.

He wrote several letters just previous to his death, couched in sane, business terms and having no bearing on any suicidal act. He had recently bought a place across the river near Fort Thomas, and had been waiting two days for the Gila river to subside so he could cross.

He had bank books showing \$4000 deposited, and \$57 cash in his clothes. He had ordered the living room to have a team to take him to Hot Springs.

He was not powder burned and the coroner's verdict was that "he came by his death by a pistol shot, fired by himself, or by parties unknown."

A closet adjoins the room and many of the jury thought this closet may have secreted a murderer, as the trend of the bullet which passed through Mr. Cheairs' brain and into the opposite wall from the closet, would so indicate. Mr. Cheairs' friends insist that he was deliberately murdered. The deceased had been a cattleman in Colorado, having a brother in Sterling, Colo., to which place his body was shipped. He was about 35 years old, unmarried, and is survived by six brothers and sisters, some of whom live in Los Angeles, Cal.

CIRCULATES POSTER NOMINATING REYES

Latest Ticket Proposed In Mexico Is Reyes and Estanol.

The Mexican Herald of Thursday said:

"Late last night posters were distributed making the following announcement:

"The sensible people of Mexico nominate for president of the republic the renowned general of division Bernardo Reyes, and for vice president, the illustrious Lic. Jorge Vera Estanol."

"To the patriotism of both we leave the acceptance of these candidacies. Effective Suffrage and No Re-election."

Asks Candidates to Speak Out.

"That general Reyes and Teodoro Dehesa who are being talked of as probable candidates for the presidency and vice presidency should speak out more clearly in regard to their respective positions, in the opinion expressed yesterday by Lic. Tomas J. Pena."

"He says that while they do not accept or reject definitely the idea, that people are uncertain what to expect and are with uncertainty looking forward to an electoral fight which might mean a revolution or even a reign of anarchy."

"The lawyer says that in the statement made a few days ago by Dr. Espinosa de los Monteros to the effect that when it was rumored that general Reyes' life was in danger, that 1000 armed men went out in his defense, this should be investigated by the president of the republic. Mr. Pena says nothing could be more dangerous than that 1000 men should be under arms at this time to defend the life of any particular citizen."

"Lic. Pena says further that he learns that some of the officers of the army have been approached for the purpose of securing their allegiance to general Reyes, but that he learns also that they flatly refused to pledge themselves and are prepared to reproach any act which is not dictated by their military honor."
